Indiana; Consent Decree Requirements**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a portion of Indiana's construction permit rule for sources subject to the state operating permit program regulations at 40 CFR Part 70. These provisions authorize the state to incorporate terms from Federal consent decrees or Federal district court orders into these construction permits. EPA is also approving public notice requirements for these permit actions. These rules will help streamline the process for making Federal consent decree and Federal district court order requirements permanent and Federally enforceable.

SUPPLEMENTARY INFORMATION: In the Final Rules section of this

Federal Register, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the Rules section of this Federal Register.
